Highlights

- Set up, installed & configured BW, BOBJ, HANA & BPC landscapes (Sandbox/Dev/QA/Prod)
- Led greenfield implementation of FI, P2P, OTC, CRM and HR through a mixed architecture leveraging SAP BW on HANA, SAP HANA EE, SAP BusinessObjects and Suite on HANA
- Performed development, enhancements, support & maintenance for SAP BW, BO & HANA landscapes
- Delivered dashboards and reports leveraging Analysis for Office, SAP Design Studio, Web Intelligence & Crystal Reports
- Managed and delivered ad-hoc needs such as SAP Lumira Training, Proof Of Concepts such as Tableau integration with SAP BI and more

"Visual BI has been a great partner to work with on several SAP implementations. They demonstrated the ability to develop and implement a BI and reporting strategy on the latest platforms including SAP BW and Suite on HANA. The team members are professional and highly knowledgeable in their areas. We feel we have the right partner who can develop and deliver insightful reports to our executives and internal customers"

- IT Director
